

Coding Conventions 2020-2021

Struct	lower_case
Struct Members	lower_case
Enum	lower_case
Enum Members	ALL_CAPS
Public functions	lower_case
Private functions	lower_case
Trivial variables	i,j,k, etc.
Local variables	lower_case
Global variables	g_lower_case (searchable by g_ prefix)
Constants & macros	ALL_CAPS
Pointer variables	p_lower_case (pg_lower_case for global, p_ALL_CAPS for constants / macros)

General Advice:

- 1) Place group of related functions in a separate module (.c).
- 2) Functions as logical units.
- 3) Function and variable names should indicate their purpose.
- 4) Document all function inputs, outputs and purpose.
- 5) Add concise comments inside functions for explanations.
